DETAILS

Key features

The Cat.6A ON NETT range is based on a comprehensive and diversified offering. The RJ45 socket ensures perfect cable termination using the dedicated Impact Tool. All Keystone jacks in the ON NETT range provide guaranteed performance characteristics for each individual component.

TECHNICAL FEATURES

Characteristic	Value
Dimension	Keystone
Mix	ABS high mechanical resistance flame retardant
IDC Terminals	nickel-plated phosphor bronze 50/60 micron
Contacts	nickel with 50/60 micron gold
Sticker	identifies connections to be performed according to EIA/TIA 568A or B
N° Plug-in insertions	750
Section of conductors (AWG)	22-26
Insulation resistance (m ohm)	500
Contact resistance (m ohm)	750
Maximum current allowed	1,5 A
Color	White
Standards	IEC 60603-7-5 (Standard on RJ45 connectors)
	ISO 11801 2° ed. (general systems)
	EIA/TIA 568B
	EN 50173 2 ed. (General wiring)
