DETAILS

Key features

The Cat.5e ON NETT range is based on a comprehensive and diverse offering. The RJ45 socket ensures perfect cable termination using the dedicated Impact Tool. All Keystone jacks in the ON NETT range guarantee high-performance characteristics for each individual component.

TECHNICAL FEATURES

Characteristic	Value
Dimension	mini-keystone
Mix	ABS high mechanical resistance flame retardant
IDC Terminals	nickel-plated phosphor bronze 50/60 micron
Contacts	nickel with 50 micron gold
Sticker	identifies connections to be performed according to EIA/TIA 568A or B
N° Plug-in insertions	750
Section of conductors (AWG)	22-26
Insulation resistance (m ohm)	500
Contact resistance (m ohm)	750
Maximum current allowed	1,5 A
Color	White
Standards	IEC 60603-7-5 (Standard on RJ45 connectors)
	ISO 11801 2° ed. (general systems)
	EIA/TIA 568B
	EN 50173 2 ed. (General wiring)
