DETAILS

Key features

Optical drawer designed to accommodate up to 24 ST and FC adapters.

With a depth of 252 mm, made of steel sheet, it provides an exceptionally large and convenient tray for managing fibre reserves.

It allows the simultaneous use of two splice holder cards, supporting up to 48 fibres in a height of 1 rack unit. Each panel is equipped with a dual identification system featuring consecutive numbering and a white label for writing. On the sides, there are two snap-in clips to lock the tray to the structure, which can be easily opened for the removal or sliding of the central tray. Available in empty or preloaded versions with adapters.
